Background for Ozone Depleting Substances Offset Project Data Report

Section 95976(d) of the Cap-and-Trade Regulation specifies reporting requirements for offset projects participating in the Compliance Offset Program. Offset Project Operators (OPO) or Authorized Project Designees (APD) are required to submit an Offset Project Data Report (OPDR) within four months of the end of each (annual) reporting period. This form is designed to help OPOs and APDs provide the information required for offset projects using both the Compliance Offset Protocol Ozone Depleting Substances Projects, October 20, 2011 and the Compliance Offset Protocol Ozone Depleting Substances Projects, November 14, 2014. This information is submitted to the approved Offset Project Registry that is listing the offset project and should also be provided to the ARB-accredited verification body that will be verifying the Offset Project Data Report.

Where to Submit Information Contained in This Form

Please complete the information on the form using your computer. Then either add an electronic signature to the form or print, sign, and scan the form. The completed and signed information and all supporting documentation should be submitted to the appropriate Offset Project Registry.

This form is also available from the ARB website at:
<http://www.arb.ca.gov/cc/capandtrade/offsets/forms/forms.htm>

Detailed Instructions for Ozone Depleting Substances Offset Project Data Report

This form is protected with restricted editing to facilitate completing the form. If the applicant wishes to unprotect the form, the password is "form".

Part I. Entity Submitting Report:

- Indicate whether the Offset Project Operator (OPO) or Authorized Project Designee (APD) is submitting the Offset Project Data Report (OPDR).
- Regulatory amendment in section 95976(d)(10) requires that each version of the OPDR specifies the version number and the date submitted. Moreover, the protocol requires that each OPDR include the date of completion. Please include the OPDR version number, the date of OPDR completion, and the date of OPDR submission to the Offset Project Registry.
- The person submitting the information should indicate the date the form is completed.
- List the name, phone, and email address of the person submitting the information. This person should be an employee of the OPO or APD. The person submitting the information need not be the contact person listed for the OPO or APD in Part III and also need not be the OPO's CITSS account representative signing the OPDR in Part VIII.

Part II. Offset Project Information:

- Provide the name for the offset project and its Offset Project Registry ID number, as provided by the Offset Project Registry listing the project. Also include the ARB project ID number, if known.
- Indicate the Offset Project Commencement Date and the start and end date of the Reporting Period covered in this Offset Project Data Report.
- Indicate the version of the compliance offset protocol under which the project is listed. Also indicate the version under which the project is reporting. A project may report under the version which it is listed or may transition to a subsequent version. A project may transition only at the time of submitting the initial Offset Project Data Report to the Offset Project Registry (see section 95973(a)(2)(D)).

Part III. OPO/APD Information:

- Enter contact information for the Offset Project Operator (OPO) and Authorized Project Designee (APD) of the offset project. Every project will have an OPO. If a project does not have an APD, please mark the box indicating the project does not have an APD and leave the remaining fields blank.
- For both the OPO and, if applicable, the APD, enter the entity's name, its CITSS ID number, its mailing address, its street address (if different), and the name, phone number, and e-mail address of a contact person for the entity. The CITSS ID is six characters in length, with two letters followed by four numbers (e.g., "CA1234"). **DO NOT PROVIDE THE OPO's or APD's CONFIDENTIAL CITSS ACCOUNT NUMBER**, which begins with the CITSS ID number followed by a hyphen and more numbers.

Part VI. Reported GHG Emissions and Reductions:

- For the Reporting Period covered in this Offset Project Data Report, enter the offset project's baseline emissions, its project emissions, and its total GHG reductions. Emissions should be reported in metric tons of CO₂e.

Part V. Destruction Information:

- Provide the name of the destruction facility and its street address.
- Enter the start and end dates of the ODS destruction events.
- Expand the section or attach additional sheets if the project includes more than five destruction events.

Part VI. ODS Destroyed:

- This part summarizes all the eligible ODS destroyed for each destruction event.
- Enter the total mass of all ODS material destroyed in pounds. This weight includes eligible ODS and other ineligible material, including high boiling residue (HBR), moisture, and ineligible ODS. This should match the weight on the certificate of destruction.

- Enter the mass fraction of each eligible ODS destroyed. For refrigerant projects, HCFC-22 and HCFC-141b are ineligible and should be marked "n/a" or left blank.

Part VII. Questions:

- Provide the number of parties included in the project's chain of custody. Provide the required information for each entity in the chain of custody in the Offset Project Data Report's Appendix.
- This part also includes two questions required in the compliance offset protocol.
- First, the OPO or APD must respond whether the offset project has met all local, state, and federal regulatory requirements during the Reporting Period. Local regulatory requirements include those by any air quality, water quality, zoning, or other agency with jurisdiction over any aspect of the offset project.
- Regulatory amendments in section 95973(b)(1), effective October 1, 2017, allow an OPO or APD to effectively exclude a time period during which a project is out of regulatory compliance and receive ARB or registry offset credits for the remainder of the reporting period. If an OPO or APD is excluding some dates, the OPO or APD should provide the excluded dates.
- Second, the OPO or APD must answer whether the information submitted in the offset project's listing remains accurate. If the listing information remains accurate, skip to Part VIII. For information which is no longer accurate, answer questions 3a through 3g to indicate which portions of the listing information is being updated in this report.

Part VIII. Attestation and OPO Signature:

- Section 95975(d)(5) of the Cap-and-Trade Regulation requires an attestation for Offset Project Data Reports. The attestation should be initialed by the person signing the form.
- The attestation requires the applicant to provide some information to complete the statement. The project name should match the name entered in Part II. The dates covering the project Reporting Period should also be provided. Please note that the dates provided in the attestation should be the same dates provided in Part II. Also indicate the protocol version under which this project is reporting. This may differ from the version under which the protocol is listed.
- Amendments adopted in April 2014 to section 95976(d)(6) require the attestation "be provided to an Offset Project Registry with the Offset Project Data Report if the offset project is listed with an Offset Project Registry."
- The individual signing the document must be registered in CITSS as the OPO's Primary Account Representative or Alternate Account Representative. The individual signing the document may be an APD employee and/or representative; but to sign the document, the individual must be an Account Representative on the OPO's CITSS account.
- Please provide the individual's signature, printed name, corporate title, and date signed.

Appendix. Parties in Chain of Custody:

- Provide the name of each entity included in the chain of custody documentation.
- For each entity, briefly describe their role (e.g. "reclaimer" or "transport"). For each entity, provide their mailing address.
- Also provide the name of a contact person at each entity, along with that person's phone number and email address. Typically the contact person should be an entity employee or representative and should be familiar with the entity's role in offset project activities.
- Use as many pages of the Appendix as necessary. You may expand the section or attach additional sheets for additional entities in the chain of custody.
- When submitting the completed Offset Project Data Report, blank pages in the Appendix and the two Instruction pages need not be submitted.

PART VII. QUESTIONS

g. Does any other information in the project listing need to be updated?
(If "yes," provide those updates on separate attached paper.)

☒ **Yes**
☐ **No**
