

## American Carbon Registry Carbon Offset Project Listing Form

**Instructions:** Please fill out the below questions as completely and accurately as possible based on current project details. We understand some details may be adjusted prior to the validation of the full GHG Project Plan.

This form is required for all new ACR projects submitted for listing review per the Project Development Trajectory requirements presented in the ACR Program Standard, Chapter 6. Project Proponents should review the ACR eligibility criteria in the latest ACR Program Standard, Chapter 3, as well as the requirements of the relevant ACR-approved methodology to assess project eligibility prior to submitting this form.

This form must be completed and executed by a duly authorized representative of the Project Proponent.

General Project Details	
ACR Project ID	ACR562
Project Title	Finite Carbon - Hiawatha Sportsman's Club IFM
Chosen Methodology: Name and Version	Improved Forest Management Methodology for Quantifying GHG Removals and Emission Reductions through Increased Forest Carbon Sequestration on Non-Federal U.S. Forestlands Version 1.3
Applicable version of ACR Standard	Version 6.0
Project Location(s)	Mackinack County, Michigan
Project Start Date	07/02/2020
Crediting Period	07/02/2020 - 07/01/2040
Expected first Reporting Period	07/02/2020 - 12/31/2020
Summary Description of Project	Located in Michigan's beautiful Upper Peninsula, Hiawatha Sportman's Club is a member-owned 35,000-acre wilderness playground. Part of the Northern Hardwoods-Conifer region, the property contains many different habitats: Lake Michigan shoreline, inland lakes, spring-fed rivers, marsh, mature coniferous and hardwood forest and open fields. Supported by HSC's

	sustainable forest management, these diverse habitats attract and sustain a wide variety of birds, mammals and other wildlife.
<b>Process Questions</b>	
Was/Is this Project Listed on Another Registry?	Yes
Will all relevant monitoring, metering and quantification requirements be followed as written in methodology?	Yes
Does the Project Proponent maintain undisputed title to all potential offsets that is clear, unique and uncontested?	Yes
Will the GHG Project Plan be validated within the timeframe required by the ACR Standard, Chapter 3, Table 2?	Yes
Is there an existing law, regulation, statute, legal ruling, or other regulatory framework in effect as of the project Start Date that mandates the Project Activity or effectively requires the GHG emissions reductions?	No
<b>Project Management</b>	
Project Proponent	Hiawatha Sportsman's Club
Technical Consultants, if any	Finite Carbon
Additional Affiliated Parties, if any	
<b>Signature</b>	
Project Proponent Representative Submitting Form: Name and Title	Charles Lawler
