

American Carbon Registry Carbon Offset Project Listing Form

Instructions: Please fill out the below questions as completely and accurately as possible based on current project details. We understand some details may be adjusted prior to the validation of the full GHG Project Plan.

This form is required for all new ACR projects submitted for listing review per the Project Development Trajectory requirements presented in the ACR Program Standard, Chapter 6. Project Proponents should review the ACR eligibility criteria in the latest ACR Program Standard, Chapter 3, as well as the requirements of the relevant ACR-approved methodology to assess project eligibility prior to submitting this form.

This form must be completed and executed by a duly authorized representative of the Project Proponent.

General Project Details	
ACR Project ID	586
Project Title	18 Reserves Forest Carbon Project
Chosen Methodology: Name and Version	Improved Forest Management Methodology for Quantifying GHG Removals and Emission Reductions through Increased Forest Carbon Sequestration on Non-Federal U.S. Forestlands version 1.3
Applicable version of ACR Standard	6.0
Project Location(s)	Around Cleveland, Ohio
Project Start Date	January 15, 2020
Crediting Period	January 15, 2020 to January 14, 2060
Expected first Reporting Period	January 15, 2020 to December 31, 2020
Summary Description of Project	The 18 Reserves Forest Carbon Project is located in Cleveland Metropark's Bradley Woods, North Chagrin, Mill Stream Run, Brecksville, and Hinckley forest reservations. The project is managed for carbon sequestration, provision of wildlife habitat, protection of local water quality, and recreation. The forest consists primarily of mixed hardwoods including various oak species,

	American beech, yellow poplar, maples, American sycamore, and hickory, as well as scattered stands of pine and hemlock.
Process Questions	
Was/Is this Project Listed on Another Registry?	No
Will all relevant monitoring, metering and quantification requirements be followed as written in methodology?	Yes
Does the Project Proponent maintain undisputed title to all potential offsets that is clear, unique and uncontested?	Yes
Will the GHG Project Plan be validated within the timeframe required by the ACR Standard, Chapter 3, Table 2?	Yes
Is there an existing law, regulation, statute, legal ruling, or other regulatory framework in effect as of the project Start Date that mandates the Project Activity or effectively requires the GHG emissions reductions?	No
Project Management	
Project Proponent	Cleveland Metroparks
