

## Verification Statement

**Submitted To:** ACR Chief Technical Officer

**Verification Entity:** Aster Global Environmental Solutions, Inc.  
3800 Clermont Rd NW  
North Lawrence, OH 44666

**Lead Verifier:** Mansfield Fisher ([mfisher@asterglobal.com](mailto:mfisher@asterglobal.com)) / 330-294-1242)

**GHG Project Plan:** Cleveland Metroparks/18 Reserves Forest Carbon Project - prepared by Cleveland Metroparks and The Climate Trust. The project's verification was conducted as part of ACR's program requirements for GHG offset projects.

The verification included the verification of carbon sequestered through the end of the reporting period (31 December 2021). The project utilized the Improved Forest Management Methodology for Quantifying GHG Removals and Emission Reductions through Increased Forest Carbon Sequestration on Non-Federal U.S. Forestlands, version 1.3, and the ACR Tool for Risk Analysis and Buffer Determination, version 1.0. The GHG Project Plan verification included carbon sequestered through Improved Forest Management (IFM) on approximately 8,961 acres. The project asserts emission reductions and removals of 141,414 tCO<sub>2</sub>e for the second reporting period (01 January 2021 – 31 December 2021).

This verification statement confirms that Aster Global Environmental Solutions, Inc., (ACR-Approved Verifier) has evaluated the GHG assertion by Cleveland Metroparks and The Climate Trust (Project Proponent) covering the period from 01 January 2021 – 31 December 2021 according to the protocols outlined by the American Carbon Registry and ISO, specifically: the ACR Standard and ISO 14064-3:2006, and ISO 14065:2013.

Aster Global Environmental Solutions, Inc., (ACR-Approved Verifier) confirms all verification activities including objectives, scope and criteria, level of assurance and the project's adherence to the ACR Standard and the validated GHG Project Plan (dated January 2020), as documented in the verification report entitled 20090.01 TCT Cleveland Metroparks Verification Report are complete. Aster Global concludes without any qualifications or limiting conditions that the GHG assertions made by the project for the 2021 reporting period are without material discrepancy and that the verification activities provide a reasonable level of assurance as defined by ACR Standard v6.0.

The GHG assertion provided by Cleveland Metroparks and The Climate Trust and verified by Aster Global has resulted in the GHG emission reductions and removals of 141,414 tCO<sub>2</sub> equivalents by the project during the second verification period/reporting period (01 January 2021 – 31 December 2021).

GHG Reductions or Removals	Units
Baseline Emissions / Reductions	209,979 tCO <sub>2</sub> e
Project Emissions	25,712 tCO <sub>2</sub> e
Leakage	94, 277 tCO <sub>2</sub> e
Uncertainty Deduction Rate <sup>1</sup>	0% <sup>1</sup>
Buffer Pool Contribution	28,283 tCO <sub>2</sub> e <sup>2</sup>
<b>2021 GHG emission removals total (tCO<sub>2</sub>e)</b>	15,427 tCO <sub>2</sub> e
<b>Total Emission Reduction Tonne(s) (ERTs)</b>	141,414 tCO <sub>2</sub> e

<sup>1</sup> Please note that the uncertainty was calculated as 7.19% but was below the 10% ACR threshold.

<sup>2</sup> Please note that the risk buffer of 20% was not deducted, as project elected to source the buffer pool contribution from ERTs that were previously registered by The Climate Trust.
