Ruby Canyon Environmental, Inc. (RCE) provides this addendum to the verification statement issued on April 4, 2022, for ACR736 Tradewater US – ODS - #1 Project (Project), made in accordance with the Methodology for the Quantification, Monitoring, Reporting and Verification of Greenhouse Gas Emissions Reductions and Removals from the Destruction of Ozone Depleting Substances and High-GWP Foam, Version 1.2 (November 2021) for the reporting period February 5, 2022 to February 7, 2022.

The addendum covers the verification of the updated versions of the Project Plan and Monitoring Report to show new calculated baseline emissions, project emissions, and emissions reductions for the reporting period February 5, 2022 to February 7, 2022 in accordance with the Methodology for the Quantification, Monitoring, Reporting and Verification of Greenhouse Gas Emissions Reductions and Removals from the Destruction of Ozone Depleting Substances and High-GWP Foam, Version 2.0 (February 2023).

The verification was conducted to the following criteria:

- ACR Standard, Version 7.0 (December 2020),
- ACR Validation and Verification Standard Version 1.1 (May 2018),
- The Destruction of Ozone Depleting Substances and High-GWP Foam Version 1.2 (November 2021)
- The Destruction of Ozone Depleting Substances and High-GWP Foam Version 2.0 (February 2023), for crediting period and quantification of emissions reductions only, and
- ISO 14064-3:2006, Greenhouse gases – Part 3: Specification with guidance for the validation and verification of greenhouse gas assertions.

Based upon the processes, procedures and evidence reviewed, RCE concludes that the Project's updated GHG emissions reductions resulting from destroyed ODS refrigerants during the reporting period are:

- Without material discrepancy, and
- Verified to a reasonable level of assurance.

Eligibility and required checks of the original validation and verification remain unchanged.

**Verified Emission Reductions or Removals for reporting period 2/5/2022 – 2/7/2022**

Baseline Emissions (MTCO <sub>2</sub> e)	Project Emissions (MTCO <sub>2</sub> e)	Leakage Emissions (MTCO <sub>2</sub> e)	Emission Reductions (MTCO <sub>2</sub> e)
31,870	52	N/A	31,818

**Emissions Reductions Tonnes (ERTs) to be issued for reporting period 2/5/2022 – 2/7/2022**

New ERTs	Original ERTs	Outstanding ERTs
31,818	27,748	4,070
