

### **Verification Statement**

This verification statement confirms that Environmental Services, Inc. (ACR-Approved Verifier) has evaluated the GHG assertion by GreenTrees, LLC (Project Proponent) covering the period from 1 January 2008 to 31 December 2009 according to the protocols outlined by the American Carbon Registry, and that this verification statement is consistent with ISO 14064-3:2006 and ISO 14065:2007.

Environmental Services, Inc. (ACR-Approved Verifier) confirms all verification activities including objectives, scope and criteria, descriptions of data supporting GHG assertions, and risk of reversal assessment as documented in the verification report entitled *American Carbon Registry (ACR) GreenTrees, LLC. Series GT and A-1 Verification Report* dated 28 February 2011 are complete and concludes without any qualifications or limiting conditions that the GHG assertion by GreenTrees, LLC is without material discrepancy and that the verification activities provide a reasonable level of assurance as defined by ACR.

The GHG assertion provided by GreenTrees, LLC. has resulted in the removal, emission reduction, or removal enhancement of:

Beginning (mm/dd/yy): 1 January 2008

Metric Tons CO<sub>2</sub>e: 1,119.17

End (mm/dd/yy):

31 December 2009

Actual number of ERTs: 1,119.17

- This verification statement replaces the preliminary (contingent) verification statement released on 29 June 2010.
- *Relative to the verification of this project, the American Carbon Registry has issued specific guidance on the following aspects:*
  - Approval of deviations from the sampling methodology as laid out in the MRV.
  - Approval of the regression equation used to calculate volume of trees with DBH < 1”.
  - Inclusion of the soils carbon and temporary exclusion of the forested carbon pool for stands where poor survival led to little to no above ground biomass.
  - Addition of GreenTrees series GT to this verification.
  - Approval of how the buffer contribution will be dealt with for GreenTrees series A-1 and series GT.
